do not understand that disorders of this description unfit them for wifebood and motherhood, and as a consequence are careless and neglectful of their health in a womanly way. Others who realise the truth, shrink from the "examinations" and "local treatments" insisted upon by the average physician. Dr. Pierce's Pavorite Prescription does away with the necessity for these obnoxious examinations and local treatments. It acts directly and only on the delicate and important organs that are the vestibule of human life and makes them strong, healthy, vigorous, virile and elastic. It fits for wifehood and mother-hood. It banishes the annoyances of the uncomfortable period preceding maternity and makes baby's arrival in the world easy and nearly painless. All the dangers of maternity vanish under its beseficent influence. Its use during the period of anticipation is a guarantee of the little stranger's health and an ample supply of natural mourishment. Thousands of women have testified to its marvelous merits. All medicine stores sell it. Accept no substitute that may be represented as "just as good."
